

Hi Everyone !

We are thrilled to present you with your copy of the Field Factbook!

This is meant to be a companion for your journey between now and the workshop at TERI...and thereafter. Use it to capture your notes, observations, learnings – anything which will allow you to refer to these valuable days in the field once we are in the workshop at TERI Retreat.

Bus Activity: Instructions -

1. **Pair up** : On the first leg of the bus journey, consider sitting next to someone ***who is not from your local team***...ideally someone you do not get the opportunity to speak to often. Take time for a conversation which can include :
 - Understanding how your individual roles enable each other in the PRANA project
 - Sharing a new cultural experience/insight you have had since arriving at Amritsar
 - Learning 3 -5 new terminologies (social/technical) used by the people you will meet and greet in the field
2. **Square up** : On the second leg of the bus journey, combine your pair with another pair (to form a Quad) and exchange your learnings from earlier
 - Identify experiences and terminologies that are common & unique to both pairs
 - Share interesting /creative photos you have had an opportunity to take (based on your collective learning) within your Quad
3. **Gear-up..PRANA photo caption contest** : On the train journey back, contribute atleast one photo per Quad, that you would like to contribute to the Workshop photo-caption contest!
 - Email your photo with the caption, directly to Manvinder/ Paul/ Amanda, clearly mentioning your Quad team member names!
